Aim and Objective
of the use of public resources, as well as building a constituency for reform of the PFM system across an array of non-state actor.

AN OVERVIEW OF THE NSA SUPPORT PROGRAMME
With support from its Development partners ([World Bank](#), [EU](#), [DFID](#), [IDA](#) and [AfDB](#)), the Government of Sierra Leone ([GOSL](#)) has developed the Integrated Public Management Reform Project ([IPFMRP](#)). This project was designed to support the Government, in improving credibility and predictability, control and transparency of fiscal and budget management.

The Non-State Actor (NSA) Support programme is the fourth component of the Integrated Public Financial Management Reform Project (IPFMRP) that was launched in 2009. One of the key component of the IPFMRP is the coordination of Non State Actors' oversight and scrutiny of public financial management.

The aim of the NSA component is to assist the development of the analytic and dissemination capacity of non-state actors in exercising scrutiny over the use of public resources, as well as building a constituency for reform of PFM system across an array of Non-State Actors.

IN DEPTH

This section contains our reports, publications, news and upcoming events in order to provide all PFM and non-PFM stakeholders including the public and the media with the information on the list of all approved projects that are covered by the grant portfolio. You can also join our public discussion forum, where the community meets to discuss about the NSA Support Programme, expand your knowledge, and create connections with others or get answers to the most commonly asked questions about the Non State Support Programme.

Design of a dynamic database driven website for the National Public Procurement Authority (NPPA) – Sponsored by the Ministry of Finance and Economic Development / World Bank (Career Page View)

The screenshot displays the career section of the National Public Procurement Authority (NPPA) website. At the top, a dark blue header bar includes links for FAQ, Career Opportunities, Web Mail, and Employee Portal, along with a search bar and login/register buttons. Below the header is a banner featuring a woman in a graduation cap and gown, with the word "CAREERS" prominently displayed. To the left of the banner is a newsletter sign-up form with fields for Procurement News and Bid Notifications, and buttons for Subscribe and Unsubscribe. A small thumbnail image shows a globe with silhouettes of people. A sidebar on the left contains a "View our mission" link. The main content area features a "Latest Bids" section with a red header and a "Provision of Common Use Terminal Equipment services - Wednesday, 03 July 2013 07:32" message. Below this is a "THERE ARE CURRENTLY NO VACANCIES AVAILABLE" notice. The central text area welcomes visitors and notes that there are currently no job vacancies. To the right, a "EQUAL OPPORTUNITY" section states that the NPPA is an equal opportunity employer based on merit. Further down, a "WHO'S ONLINE" section indicates 2 guests and no members online. At the bottom, a "QUICK LINKS" section lists various acts and their descriptions, such as The Public Procurement Act, 2004, The Anti Corruption Act, 2000, The Local Government Act, 2004, The NASSIT Act, 2001, and The NRA Act, 2002. A footer navigation bar at the very bottom includes links for Home, FAQ, Photo Gallery, Site Map, Contract Awards, E-Library, Employee Portal, Contact Us, LTR, and RTL. Copyright and design information are also present in the footer.

Data Base Systems

UNIPSIL – Design of Web Based Staff Directory Database System

This system is now being used by the client across its supply chain for collaboration and dissemination of information. It allows rapid sharing of UN standard documentation and uploading and exchange of project (event records) information. Prior to launching of the site a pilot exercise was conducted to establish functionality and usefulness of the system. The system includes (but is not limited to):

- web based reporting and charting.
- password protected login access,
- access admin control with database group of varying access levels
- individual access account logins
- search engine / mode
- password reminder and reset
- automated database backup

Lead Programmer: Amjad M. Kamara

The screenshot shows a web-based application interface for managing staff. At the top, there is a navigation bar with links: Employees Details, Departments, Employees, Reports, Sections, Printer Setup, and Log Out. Below the navigation bar, the title "EMPLOYEES" is displayed with a back arrow icon. A search bar labeled "Search for" is followed by a "Go" button. There are dropdown menus for "Last Name" (set to "All") and "Postal Code" (set to "All"). The main area is a grid table with columns: Photo, Last Name, First Name, Title, Title Of Courtesy, Birth Date, Hire Date, and Address. The "Photo" column contains small thumbnail images of the staff members. The "Last Name" column lists names like Kamara, Fuller, Levy, Peacock, and Buchanan. The "First Name" column is partially visible. The "Title" column shows titles like "Mr.", "Mrs.", etc. The "Title Of Courtesy" column shows titles like "Employee ID: 12678". The "Birth Date" column shows dates like "1968". The "Hire Date" column shows dates like "5/1/1992". The "Address" column is empty. A modal window titled "PHOTO" is open over the grid, displaying a large image of Amjad M. Kamara. The modal also contains his Employee ID (12678), address (3 Circuit Drive, Freetown), email (amjad.kamara@ntl.com), phone numbers (232-76-450135(Work) and 232-76-611720(Home)), and current status (On Vacation). The modal has a close button and a vertical scroll bar.

Fig. 1.0 Mock-up design of UN Staff Directory. All personal in screenshot are fictional characters and not actual UN workers.

United Nations Integrated Office in Sierra Leone (UNIOSIL) – June 2008

Design of Web based Database System for Freetown Central Prison for use and access by registered users of the system. By incorporating a robust and proven RDBMS (MySQL) into the system, reliable performance and integrity of data was ensured with a powered back up of the server system.

This is a sophisticated system for the control, issue and tracking of prisoners documentation including:

- Nominal Roll – capturing prisoner's demographic details, digital photos of the prisoner and the list of articles surrendered by the prisoner upon arrest/imprisonment.
- Case Register – containing all the details of the case(s) against the prisoner including sentencing details, remand/conviction detail etc.
- Automated release diary generator –
- Parole Register – a tracker of all prisoners on parole, visitor / relative / interview request and tracking of movements of all other prisoners.
- Status reports and demographical analysis report generator.

Programming / Script Language Used: Java Script, PHP Hypertext Pre-processor (PHP), XML and Ajax technology.

Server / Database Management System - Apache Web Server – MySQL DBS.

Lead Programmer: Amjad M. Kamara

The screenshot displays two windows of the Sierra Leone Prison Management System. The top window shows the 'Inmate Registration' page, listing two inmates: Junior George (ID 1) and Ahamidu Koroma (ID 2). The bottom window shows 'Prisoners by Status' with a pie chart illustrating inmate distribution across Trial, Condemned, Death Row, and Remand categories.

Inmate Registration (Top Window):

Photo (Front View)	First Name	Last Name
	Junior	George
	Ahamidu	Koroma

Prisoners by Status (Bottom Window):

Status	No. of Inmates
Trial	9
Condemned	1
Death Row	2
Remand	6

HFC Mortgage and Savings Sierra Leone Limited

A static website with security to protect user details. A sophisticated matrix system was used to define types of information that are accessible and also to route relevant information to appropriate recipients. Secure backup procedures were adopted.

The screenshot shows the homepage of the HFC Mortgage & Savings Sierra Leone Limited website. The header features a banner with a flag, a house icon, and the company name. Below the banner is a navigation menu with links: Home, About Us, Mortgage Products, Accounts, What's New, Form Centre, Careers, Customer Service, Sitemap, and Contact us. The main content area includes sections for Non Resident Sierra Leoneans (with an 'Apply Online' button), Customer Services (with an image of a call center agent), and Mortgage Products (with an image of a house key and a percentage symbol). There are also sections for HFC M&S Savings Account (with an image of a piggy bank) and Our Services (with images of a man, a couple, and a woman, along with text about home ownership and internet banking). At the bottom, there is a footer with links: Home | About us | Mortgage Products | Accounts | Form Centre | Careers | Customer Service | Site Map | Contact Us. A recycling logo is at the very bottom.

The Kona Lodge – Sierra Leone

The project included the website design, development and online marketing of the Kona Lodge Hotel". The design included a secure online booking system.

The screenshot displays the homepage of the Kona Lodge website. At the top, there is a navigation bar with links for Home, About Us, Rooms, Dining, and Contact Us. A search bar is located in the top right corner. The main content area features a large image of a well-furnished hotel room with a double bed, a television, and a vase of flowers. Below this, on the left, is a booking form titled "Book Online" with fields for Check in (17-05-2012), Check out (18-05-2012), Thursday, Friday, Room Type (-Select), Adults (1), Children (0), and a "Search" button. To the right of the booking form is a section titled "A warm welcome to Kona Lodge Hotel" which includes a paragraph about the hotel's location and services, followed by a "Business & Leisure" section featuring a photo of people relaxing on a beach. Further down are sections for "Featured Rooms" (with images of three different room types), "Social Events" (with a photo of a couple in formal attire), and "The Destination" (with a photo of a beach and mountains). On the far right, there is a "Select Language" dropdown menu with icons for English, French, Spanish, German, Italian, and Portuguese, and a sidebar with links to About Sierra Leone, Places to Visit!, Photo Gallery, and Contact Us.

Testimonies

I had your team clean today for me and they really did a great job. They really got into every corner of my house and did not cut corners. I like that they are flexible in scheduling and they are on time....

Bette Alston
Derbyshire.
